Strong, modular and incomparably durable.

The KNOCKS Multi-Fix series.

KNOCKS

Regulation inspiration for you.

40 YEARS OF EXPERIENCE

The Multi-Fix series: Fit for maximum performance.

ONLY THE BEST IS GOOD ENOUGH FOR YOU?

Do you require intelligent problem solving? We will regulate it! As one of the leading manufacturers of compressed-air regulator systems and filter technology, we have been driving momentum in the industry for over 40 years. We deliver competent answers to your questions in all areas of compressed-air conditioning – providing not only expertise for a competitive edge, but also fair conditions.

OUR MULTI-FIX SERIES

Peak performance data combined with up-to-date handling advantages are the incisive characteristics of the Multi-Fix series made of die-cast zinc. The units of this series are ideal anywhere in which higher maximum pressure ranges and higher temperature stability are required. Thanks to the patented modular system, all the series components can be combined with one another.

KNOCKS means: made in Germany.

Our Multi-Fix series.

Quality, purity, quantity and composition all play a decisive role in compressed-air conditioning. Each production process has very specific requirements, which the various KNOCKS products of the Multi-Fix series fulfil in an individual and highly secure manner.
